

Peer Review Statement (ICMERE2025)

All papers published in this volume of the **SciEn Conference Series: Engineering** have undergone a rigorous peer review process to ensure the highest standards of academic quality and scientific integrity. The review process was coordinated by the Conference Technical Chair and the Technical Secretary, who oversaw the selection of expert reviewers from the broader scientific and professional community. Each submission was evaluated for its originality, technical soundness, relevance to the conference themes, and contribution to the field.

- ✓ Type of peer review: Double Blind
- ✓ Conference submission management system: EasyChair
- ✓ Number of full papers received: 327
- ✓ Number of accepted full papers: 232
